KNAUF SPECIALTY CEILINGS PRODUCT LIST

|			
	KNAUF DESIGNPANEL	Designpanel is a precision engineered perforated plasterboard made in four styles, and with four tapered edges. Designpanel is used for internal wall and ceiling lining applications where it is necessary to control sound reverberation and increase sound absorption.	https://knauf.solutions/products/acoustic-linings-specialty-linings/knauf-designpanel/
	KNAUF STRATOPANEL & STRATOPANEL LINEAR	The Stratopanel range (previously Cleaneo) offers seamless perforated plasterboard with acoustic performance for stunning ceiling design solutions with perfect acoustics and a continuous look	https://knauf.solutions/products/acoustic-linings-specialty-linings/knauf-stratopanel/
	Knauf Cleaneo Adit	Knauf Cleaneo Adit is an elegant, out-of-the-box, acoustic solution in classic, white design: This cost-effective, robust individual absorber for the wall is impressive not just for its acoustical effect, but also for its visual appeal. It can be placed unobtrusively in a room or set a striking feature to suit the design requirements. Installation of Cleaneo Adit is no more difficult than hanging a picture frame.	https://knauf.solutions/products/acoustic-linings-specialty-linings/knauf-cleaneo-adit/

	Cleaneo Up	Cleaneo Up gets to the heart of three important demands of modern ceiling planning: First of all it improves the acoustics with a constant homogeneous sound absorption characteristic in various rooms. Secondly, it emphasises the attractive design features. Thirdly, it is installed quickly. Perfect for the planner and the installer.	https://knauf.solutions/products/acoustic-linings-specialty-linings/knauf-cleaneo-up/
	Knauf Plaza	Plaza is a robust, easy to install, square edged perforated plasterboard ceiling tile. Available in four stylish designs, Plaza is designed to be installed in a visible T-grid ceiling system offering a stylish and easy to install ceiling that can deliver great acoustic performance.	https://knauf.solutions/products/acoustic-linings-specialty-linings/knauf-plaza/
	Knauf Contrapanel	Contrapanel is a robust wall and ceiling lining specially developed to provide outstanding acoustic performance with a beautiful, long-lasting finish. Excellent sound diffusion and absorption delivers acoustic comfort in large open spaces, whilst the glass fibre reinforced structure and strengthened backing paper enable a high degree of mechanical resistance and durability.	https://knauf.solutions/products/acoustic-linings-specialty-linings/knauf-contrapanel/

METAL WALL AND CEILING SYSTEMS PRODUCT LIST

Picture	Heading	Description	Knauf Metal	Rondo
	Wall Systems	Steel wall framing systems provide a durable, practical and lightweight structures for internal plasterboard walls to create attractive spaces within buildings, or external wall systems to provide direct support of the exterior cladding and interior linings.	Knauf Metal Framing Systems | Products	Walls
	Ceiling Systems	Metal ceiling systems with both concealed grid or exposed grid options, are available to meet acoustic, fire-rated, wind loading and seismic design requirements. Used to hide services or to reduce sound transmitted through the floor.	Knauf Metal Framing Systems | Products	Ceilings
	Finishing Sections	Beads and angle varieties designed to meet a variety of common and specified requirements and applications such as rendered corners, archways, shadowlines and expansion joints.	Knauf Plastering & Finishing Accessories | Products	Finishing Sections

	Access Panels	We can provide a full range of standard, sound and fire rated access panels for all your projects.	[Access panels | Products | Knauf Australia](#) [Access panels | Products | Knauf Australia](#)	[Panther® Access Panels](#)
	Top Hats and Steel Angles	Typically used in a wall application where it is necessary to provide a cavity to allow electrical or plumbing services. The cavity can be filled with glass wool type insulation or a foil membrane for improved thermal ratings. These are combined with high strength clips to provide wall Systems for different applications.	[Top Hat, Batten & Furring Channel Wall Systems | Products | Knauf Australia](#)	[Top Hats and Steel Angles](#)
	Acoustic Assemblies	Acoustic Resilient Mounts come with specifically engineered rubber pads to which have been tested to provide the perfect balance of compression whilst maintaining structural adequacy. We have a broad range of Acoustic Resilient Mounts allowing for fixing into a wide variety of applications,	[Knauf Acoustic Resilient Mount Wall Systems](#)	[Acoustic Assemblies](#)
