

EXTERNAL CLADDING PRODUCT LIST

	<p>Axon Cladding</p>	<p>Axon is a range of vertically grooved panels with the detail of vertical joint timber. Introduce drama and detail to your walls with the clean vertical lines of Axon™ Cladding. Incorporating the beauty and fine detail of painted vertical joint timber, but without time-consuming board construction or durability hassles.</p>	<p>Vertical joint cladding panels for modern and coastal style homes</p>
	<p>Matrix Cladding</p>	<p>Matrix™ is an [exterior cladding] system with a clean, modern, expressed-joint look. Matrix offers a bold industrial aesthetic when an architectural panelised look is desired. Choose from various panel sizes that suit different stud spacings, and let the 10mm express joint create a variety of geometric shapes in square, vertical, horizontal and brick pattern layouts.</p>	<p>Matrix™ Cladding Modern, Durable, Stylish look</p>
	<p>Stria Cladding</p>	<p>Achieve a range of sleek looks with customisable Stria™ cladding. Featuring deep grooves from the thick shiplap cladding boards, the Stria range is an easy way to get the strong horizontal line details in modern home and townhouse designs. Stria cladding suits contemporary looks where a bold, but pared back aesthetic is desired.</p>	<p>Versatile and durable cladding to add elegance</p>

	<p>EasyLap Panel</p>	<p>EasyLap™ panel is a pre-primed fibre cement sheet with a shiplap joint along its two vertical edges. Panels are finished with a site-applied, roll-on textured acrylic paint to achieve a subtle rendered texture look. Lightweight yet durable, EasyLap panel is an easy to install, cost-effective broadwall cladding solution.</p>	<p>A time and cost-effective broadwall solution for external wall applications.</p>
	<p>HardieTex System</p>	<p>Made by James Hardie for over 20 years, HardieTex™ base sheets are the original blue board. Strong and durable, the HardieTex System is a 7.5mm thick fibre cement base sheet that's finished on site using a third-party texture coat system (which includes joint reinforcement). Ideal for residential homes and home extensions where a rendered look is required without the weight of masonry</p>	<p>HardieTex™ blue board system</p>
	<p>HardieFlex Sheet</p>	<p>Product Details The applications for HardieFlex™ Sheet cover a wide range of design solutions for your home. HardieFlex Sheets are suitable for use in residential extensions, second story additions and gable ends. It can also be used to line porches, verandahs, carports and for soffits and eaves. One of the most economical solutions available HardieFlex is commonly used for board and batten style cladding.</p>	<p>Hardieflex™ sheet have a wide application to get the look</p>

	<p>PanelClad Stucco Sheet</p>	<p>An easy option for homeowners looking to recreate the look and feel of a Spanish villa, PanelClad® Stucco Sheet is a hand-trowelled cement rendered look, reminiscent of Mediterranean style exteriors. Ideal for creating whole walls of interest or to emphasise design features such as gable ends, on either timber or light gauge steel framed homes. PanelClad is lightweight with square edges, and when combined with the wide range of James Hardie accessories, is easy and fast to install.</p>	<p>The look of Mediterranean stucco render.</p>
	<p>Axent Trim</p>	<p>Create the perfect finishing touches to a new home or renovation, and ensure your window trims keep looking as good as your fibre cement weatherboards with Axent™ Trim.</p>	<p>Axent trim for beautiful and durable exterior window and corner trims</p>
	<p>ComTex Panel and System</p>	<p>Product Details Make inspiring designs a reality with ComTex™ Panel and System. A lightweight monolithic façade solution, ComTex provides creative freedom of form without being constrained by the weight of masonry construction. The 9mm thick panels are recessed along their two longer sides to facilitate the construction of concealed joints.</p>	<p>Compliant monolithic rendered façade.</p>

	<p>EasyTex Panel</p>	<p>EasyTex™ is a pre-primed fibre cement panel embedded with a fine texture to deliver a modern render design aesthetic. Each panel features a v-groove, ship lap joint along the two vertical edges. EasyTex panel is easy to install, resistant to cracking and lime staining, and comes ready to paint</p>	<p>An easy way to achieve a rendered look with textured fibre cement sheet</p>
	<p>Exotec Facade Panel and System</p>	<p>Expertly designed for low rise, high rise and commercial building facades, fascia's and soffits the ExoTec® Panel and System is a deemed-to-satisfy, non-combustible cladding system. Aesthetically, ExoTec is a smooth sanded compressed fibre cement (CFC) façade panel that works with a top-hat system to create geometric designs with 10mm express joints.</p>	<p>A compliant facade panel with expressed jointing system.</p>
	<p>Exotec Vero Facade Panel and System</p>	<p>The ExoTec™ Vero™ panel combines the natural beauty of 'concrete look' cladding with the highly-trusted, fully-certified ExoTec™ façade system, ensuring immediate compliance and guaranteed performance. Structurally stable and suitable for non-combustible construction.</p>	<p>ExoTec Vero Façade Panel Raw Fibre Cement and System by</p>
	<p>HardiePlank Weatherboard</p>	<p>HardiePlank™ is a no-fuss, 7.5mm thick fibre cement weatherboard with two woodgrain textures that are perfect for cost-</p>	<p>Wide weatherboards in smooth and woodgrain textures.</p>

		<p>effective home extensions. Able to be used to clad whole homes or as extensions to brick homes.</p>	
	<p>Linea WEatherboard</p>	<p>The clean horizontal lines of Linea™ weatherboards work beautifully on the expansive external walls of modern architecture. Ideal for creating a Hamptons or coastal inspired look when combined with contrasting Axent Trims in new homes or renovations, Linea can also be confidently painted in dark colours.</p>	<p>Deep shadow weatherboards for hamptons and modern homes.</p>
	<p>Primeline Weatherboard</p>	<p>Available in styles to match many heritage weatherboard homes, PrimeLine™ Weatherboards are a durable range of 9mm thick weatherboards for creating classic lines without the wonkiness of timber. The Primeline Chamfer profile has clean lines and comes in a double board height for fast installation.</p>	<p>A narrow weatherboard in 4 classic profiles</p>
